

Farmex MT-PRO Grain Moisture Meter

Farmex MT-PRO is an easy to use, reliable and fast moisture tester for professional use. MT-PRO measures moisture content in the grain and in the seeds of oilplants. The meter is calibrated for local grain and seed sorts.

The meter has a clear display with backlight and large buttons.

Farmex MT-PRO is one of the fastest moisture meters sold worldwide. Several leading OEMs have taken the MT-PRO as a part of their selection.

- Big buttons, a separate ON/OFF switch and a backlight switch
- The meter shows the condition of the battery and its need to be changed
- Batteries: 2 pieces of 9V 6F22-batteries of which one is for the backlight
- Carrying case and batteries are included
- Measurement range: 8-35 % for grain and 5-25 % for oilplants
- Average calculation
- Every scale is adjustable by the user to correspond to the reference test results made in the oven.
- Measurement accuracy +/- 0,5 % humidity for normal grain quality
- Temperature range 0-45 °C
- 12 months warranty
